

POSTERCOLOR X 180

matt 3257, 180 g/m²

High quality poster paper with blocking layer for advertising applications

A bright white, barrier-coated, matt poster paper for indoor photographic and advertising applications. In combination with aqueous and latex inks, it guarantees a broad colour spectrum and high optical densities. Its barrier coating enables good flatness, even when printing with large ink densities.

Advantages

- Excellent colour reproduction
- Free of ripples, even when printed with large amounts of ink
- Quick dry
- Acid-free
- FSC® certified

Technologies

General tips

For quality reasons the media should be stored and converted under conditions of 30 – 65% relative humidity at a temperature of 10 – 30°C.
