

LIGHT TEXTILE TRANSFER PAPER 140

matt 4234, 65 µm

High quality transfer paper for white or light-coloured cotton fabrics

Transfer paper for printing on aqueous inkjet printers, used to create unique designs for a matt finish fabric transfer. Easy to use for transferring photorealistic images or other graphics to white or light-coloured fabrics, reproducing vibrant colours. Transferred images leave the fabric feeling soft to touch, as well as being optimised for several washes.

Perfect for transferring images to t-shirts for "one-off" events, such as children's birthday parties; hen/stag nights; youth adventure trips; short-term promotions in shops.

Advantages

- Vibrant colours
- Excellent contour definition
- Stable ink fixation
- Fabric remains smooth to touch, doesn't feel synthetic
- Optimised for several washes

General tips

For best results, please read the transfer instructions carefully before starting. Fabrics should have a cotton content of at least 50% and should be washed before transferring.

For quality reasons LIGHT TEXTILE TRANSFER PAPER should be stored originally packed under 10-30°C (50-86 °F) and 30-65% rel. humidity. Under these storage conditions the product properties remain unchanged for up to 2 years.

The recommended printer settings can be found under Downloads.
