

QUICK DRY PHOTO PAPER 285

glossy 0730, 285 g/m²

Premium, glossy PE coated photo paper for professional photographic applications in high humidity environments.

Quick Dry Photo Paper 285 is perfect for the creation of studio quality photographic prints with dye- and pigmented inks. The glossy coating provides high colour brilliance, allows high ink saturation and excellent contour definition. In addition, to these characteristics prints dry instantly allowing smudge-free processing. The special design of Quick Dry Photo Paper 285 provides perfect flatness and printability even in areas of high air humidity.

Advantages

- High colour brilliance
- High ink absorption capacity
- Excellent contour definition
- Instant dry
- Smear and smudge free prints
- Optimal for high air humidity areas

Technologies

General tips

Over time unprotected dye colours will deteriorate through atmospheric processes, therefore lamination is recommended to secure long-lasting, unchanged image quality (this does not apply to pigment colours).

Storage:

To maintain quality of the product, keep unprinted sheets in the original packaging and store and process in relative humidity of 35-65% with temperatures between 10-30°C.

Physical data

Name	Value	Norm
Weight [g/m ²]	285	ISO 536
Thickness (paper) [µm]	275	ISO 534
Chromaticity (D50/2°) a* M0	L* 95.5 a* 1.5 b* -7.1	ISO 13655, M0
Opacity [%]	> 97	ISO 2471
