ROCKET PHOTO PAPER PE 190 GLOSSY

glossy 3371, 190 g/m^2

Universal, glossy PE coated photo paper for poster and photo applications

This micro porous coated, glossy photo paper with PE film on both sides, is suitable for indoor posters and photo applications and offers outstanding value for money. The coating is optimised for use with aqueous ink systems and enables quick drying. Prints impress with high colour brilliance and a broad colour gamut.

General tips

To maintain quality, the paper should be stored and converted under the following conditions of 30-65% relative humidity and at temperatures of 10-30 °C. Lamination (hot/cold) is recommended to secure long-lasting unchanged image quality. Over time unprotected dye colours will deteriorate through atmospheric processes (does not appply to pigment colours).

Physical data

Name	Value	Norm
Weight [g/m²]	190	ISO 536
Thickness (paper) [µm]	185	ISO 534
Opacity [%]	>95	ISO 2471
