

 [simply the better solution](#)

Dear Sir or Madam,

Whether customer stoppers, roll-ups or window or floor graphics: Discover our diverse assortment of materials for **customer communication** – because in the current times it is vitally important to get the message across.

With the relentless spread of Covid-19 the past few weeks have forced us all to adapt to new situations in our lives. Tentative measures are now being introduced to lift lockdown in many countries. Yet **strict safety and hygiene regulations** are set to shape society for some time to come, especially in public life.

Let us show you how you can use Sihl products to communicate information such as social distancing. There's no better opportunity to use **Sihl products to protect your staff and customers**.

We aim to offer you the **best possible service**, even during this difficult time. Our Customer Service and Sales team are available to help our customers as usual.

Best wishes from Düren, Bern and Fiskeville

**Aline Jansen**

## SYNTISOL PP FILM 170

"Please keep your distance!" is one of the most important messages you need to share with your customers right now. The universal, satin display film **SyntiSOL PP Film 170 (3629)** from Sihl will help you doing so. Printable with solvent, latex and UV inks, this splashproof film is resistant to both tears and scratches – making it not only suitable for indoor application but also ideal for use outdoors for short to mid-term periods.

## ROLLUP DISPLAYS

Even though public life is slowly beginning again, both customers and staff still need to follow important rules. Communicate these rules on easy to handle roll-ups positioned in prominent places around the point-of-sale. Sihl provide **five different roll-up films**, distinguished through resistance to tearing, excellent flatness and high opacity. Some of them are also suitable for outdoor use.

## SELF-ADHESIVE FILMS

Self-adhesive films from Sihl are the perfect choice for floor graphics, for example as

distance markings for protection against infection. For short-term solutions, **SyntiSOL SA PP Prime 170 EasyTack (3529)** is the best choice. The PVC-free polypropylene film with EasyTack adhesive can be stuck, bubble-free to smooth surfaces without leaving any residue after removal.

If the application calls for a more sturdy and resistant material, the permanently adhesive vinyl films **SA Vinyl Plus 110 P-CA FR AQ (3585)** and **SA Vinyl Plus 110 P-CA FR AQ (3635)** are best.

Please note that use of these Sihl media for floor graphic application always requires an appropriate laminate with non-slip properties.

## SYNTISOL SA PP PRIME 170 EASYTACK

Whether greeting your customers or meeting strict hygiene regulations, **SyntiSOL SA PP Prime 170 EasyTack (3529)** lets you deliver your message directly on your shop window. The self-adhesive polypropylene film is environmentally friendly, with an EasyTack adhesive and paper-like look and feel. Additionally, it can be applied easily on smooth surfaces and then removed again without leaving any residues.
